LIFE IS MUCH MORE THAN GRADES

"Life, liberty and the pursuit of happiness": a phrase considered the benchmark of human endeavour since the US Declaration of Independence in 1776.

We all have the right to live our lives joyfully in the way we want. But still, we all live our lives according to people.

As a student, our primary goal is to achieve good grades. We made grades the most important part of education but grades are those numbers which tell us how much we remember from what we have studied.

Nowadays, education mainly focuses on scores. Grades don't give a guarantee that you will succeed in life. Many people became successful even though their grades were bad. We can take Dhirubhai Ambani for example, he failed class X but he still became a very successful businessman. The current education system measures the talent of a student through his/her grades. Nowadays, we don't study for getting knowledge. Our ultimate goal is to get a good job.

With this I want to conclude that grades are just numbers, they don't decide what's going to happen in your whole life. Just try hard and enjoy what you are doing.

-Naman Tyagi
VI B

Grades Create a Divide

We as students, face stress all the time - from attempting to do our regular homework to making our career choices. But nothing is as stressful as the “**goal**” to perform excellently in exams. I mean this society has created such sentiments to get good grades. **LIFE IS NOT ALL ABOUT GRADES.** I’m not trying to say that grades are useless, but they are not as “**holy**” and “**necessary**” as we make them out to be.

“**Grades Create a Divide**” is a nice phrase to sum up grades. They make us lose our passion and relevance, sometimes even our friends. Grades are just a way to test ourselves. **IT’S NOT A BIG DEAL IF YOU GET LOW GRADES.** It’s not important to achieve good grades, it’s important to grasp the education and apply it in our lives. We all have seen students who mug up everything, and forget it all after exams. Grades should not be our destiny, they should be a medium to obtain our destiny. This is all due to the society. It has fitted us with a point of scoring good marks. No one sees our hard work in exams, just the typical age old question “**What grades did you score?**” We need to stand up against this problem as it is plaguing every student, leading to a lot of stress.

- Sanchit Raj
VIII D

meraki

[pronounced mA-'rak-E] Greek

(adv.)

To do something with soul, creativity or love;
to put something of yourself into your work.

"to [act] with meraki"

STUDY SMART, NOT HARD!

Happiness is not something you experience 24 x 7, the reason being, "you don't understand the importance of light until you go through darkness". In this era, Art/ happiness means a lot, still somewhere in society grades matter. As per me, we should always first try to maintain a balance. Happiness plays a huge part in our lives but maintaining at least 80% grades guarantees a life we can provide ourselves with, including all comforts and facilities. But different people have different opinions. I am thankful that our society has reached the point where we can find jobs worldwide, keeping happiness and mental health as key ingredients in our lives. There are more than a hundred topics related to real life that are not taught in schools. Mental health is a very sensitive, but major topic. Thus "if you are constant in working remember to take consistent breaks" don't beat yourself up. Your body, your soul is something that is stuck with you till death, treat them with tenderness and care. In conclusion, A balance of productivity (also can be referred to as grades) and joy should be maintained for a stress-free environment, it 'Study smart, not hard'.

-Avantika
VIII D

WHAT'S CODING?

Coding is the process of communicating with computers. It's a process of creating instructions for the computers to do some specific jobs like creating an app, games, calculator, etc. A program is a set of instructions that a coder writes for the computer to do some specific task. Like we have human languages such as –English, Hindi, Arabic, etc which help us communicate with each other around the world. In the same manner, we have programming languages like Java, C++, Python, C, etc to communicate with the computers. We simply write some piece of code using these programming languages and then the computer executes the program and gives us the output. In the present day, coding has made human life simple and productive. It saves a lot of time for humans. If we want to search for something then we can simply use Google (the biggest search engine), if we are getting bored and want to pass our leisure time then we can play some video games like-Minecraft, Candy Crush, Subway Surfers, etc. If we want to do some big calculations then we can use calculator apps. We can easily get anything in one click. All these applications were possible to make because of coding. By coding, we can control a computer and make it execute anything that we want. In this way, we can say that coding is the backbone of modern technology.

What is life?

Have you ever wondered what is LIFE? Well, I am going to tell you according to my experience.

LIFE is not just a journey from our BIRTH to DEATH, it is a journey of B, C, and D.

B= BIRTH C=CHOICE D=DEATH

Look, we all have a CHOICE between birth and death, the choice is about whether we want to be happy or sad, we want to say the truth or lie, we want to take an action or do nothing, we want to believe or doubt and we have many other choices too.

So, in the end, all I would say is, Life is a beautiful journey from our childhood to our aged life. We must enjoy it!

-Aaradhya Kaushik
VI-C

CAN'T JUST GET HAPPINESS BY STALKING IT..

**PURSUIT OF HAPPINESS - LIFE IS MUCH MORE THAN GRADES,
THIS MEANS THAT STALKING HAPPINESS SHOULD MEAN MUCH MORE TO
US THAN OUR GRADES...**

**WE CAN'T JUST GET HAPPINESS IF WE STALK IT. FOR GETTING IT
THERE IS A SIMPLE WAY. WE SHOULD RECALL THE PAST FOR FINDING
HAPPINESS OR WE CAN GO TO A GOOD SURROUNDING TO FIND
HAPPINESS. HAPPINESS DOESN'T JUST COME FROM MONEY IT COMES
FROM OUR SOUL, FOR EXAMPLE, A PERSON MAY DERIVE HAPPINESS BY
HELPING OTHERS, ANOTHER THROUGH MONEY, FOR A THIRD PERSON
WHEN HE DOES ANYTHING FOR OUR SOCIETY. DIFFERENT PEOPLE HAVE
A DIFFERENT MEANING OF HAPPINESS.**

**SIMILARLY, LIFE IS MUCH MORE THAN GRADES...WE CAN'T GET LIFE AT
ANY COST BECAUSE LIFE IS NOT A TANGIBLE GOOD THAT WE CAN BUY
AND SELL. LIFE IS A THING THAT WE CAN TAKE ONCE ONLY AND CAN'T
GIVE IT BACK OR CAN'T GIVE IT TO ANYONE WE CAN JUST ENJOY OUR
LIFE...AND IN THIS SENTENCE, WE CAN SEE THAT LIFE IS MUCH MORE
THAN GRADES BECAUSE WHEN WE HAVE OUR LIFE THEN, ONLY WE CAN
GET GRADES AND OTHER THINGS LIKE FAMILY, FRIENDS, AND
RELATIVES.**

-Kartavya

VI B

THE WORLD OF MY DREAMS

The world of my dreams is beautiful and peaceful where everyone loves and is loved.

I dream of a world where unity and brotherhood exist, women and men work together and where no women suffer problems because of being a woman.

My dream world is heavenly place where all girls and boys get equal education.

In my world there is no insecurity, jealousy and hatred. I dream of a world which is free from all kinds of diseases and everyone lives a comfortable, relaxed and happy life. A world which is green in colour and a living example of heaven for all kinds of living organisms in it.

At last, I would like to conclude by hoping that one day my dream world and the real world become one.

-Paavni Narad
VI D

When things get dark... relax!

It's been a while since we got our grades, and I'm happy with mine but do they really matter? Well the answer is partially yes. Grades reflect our overall progress in academics but we are not in the school only for grades, but we are here to learn the concepts of life, being social, making friends, and also to overcome our weakness whether it is being nervous in public or being distracted from anything. We are living our life to enjoy but not for grades are we? But at times we give more attention to the grades rather than thinking about what we have learnt. Finally I want to say that we get our lives only once (if you don't believe in the afterlife) and we should enjoy it and not forget to respect others, be kind and live a happy life.

Grades are not the only thing in life and life is much more than grades.

- Arsh Solanki

लॉकडाउन के दिन

क्या मज़ा इस आसमान के रंग का ,
जब खेलने जाना ही नहीं |
क्या मज़ा इस बारिश का ,
जब उसमे छप छप करना ही नहीं |
क्या मज़ा इस ताज़ी हवा का,
जब बिना मास्क के सांस लेना ही नहीं |
क्या मज़ा किसी चुटकुले का,
जब किसी दोस्त को सुनना ही नहीं.
क्या मज़ा किसी चीज़ को लेट करने का ,
जब खेलके लेट आना ही नहीं।
क्या मज़ा इस आसमान के रंग का,
जब नीचे जाना ही नहीं।

- अजिता पान्डेय

VII B

Balance

If you want to create a life that's
balanced,
You should avoid the things that create
an imbalance.
As a student your study and personal
life should be poles apart,
So that you can remain smart.
Study while you study, play while you
play
Don't let anything get in your way.
Balance is really important in your life,
So that you shine bright.

-Bhavy Bhatia

VI A

HAPPINESS ON MY MIND

So much happiness on my mind
So fun, joyful and kind
The exams have ended and we're finally free
With my grades, my parents agreed

The future can't be decided by a piece of paper
I am building a tower with my thoughts, a big
skyscraper

I would thank my teachers for who I am
Thank you for giving me my exam

I am sorry for every time I made you sad
Thank you for helping me when things turned
bad

So much happiness on my mind
So much knowledge I want to find
So much happiness on my mind
I will try my best and won't be left behind
I promise to do everything I can
on not studying I will put a ban

—Arushi Thaker

TEACHERS PREACHERS

Teachers are the best,
forget about the rest.
When studies are fun,
then we are all done.
The school we reach,
they start to teach.
The art of teaching,
is the code of succeeding.
We put our ability,
to the best of our capability.
When they teach,
they put their attention on
each.

When we learn history,
There's always a new mystery.
Learning science,
is always very nice.
Maths calculation,
can drive you into deep
meditation.
Teachers are the best,
forget about the rest.
Teachers are the best,
forget about the rest...

-Samriddhi Mishra

VII B

THE POWER OF FRIENDSHIP

The power of friendship is beyond our understanding.

Sometimes it is hard to face but good friends always work it out.

Some friends have bonds even before meeting each other.

To be a good friend one needs to be generous, honest, loyal and kind.

Sometimes things are hard to be done by ourselves.

It's not wrong to ask for help from a friend.

-Diksha
VI C

GOT MY WINGS TO FLY

**Today, I got my wings to fly,
To fly very high,
A golden moment of my life.
Will never forget
this beautiful moment of my life.
Today, I got my wings to fly,
To fly very high,
And now, I have started flying
High in the sky,
A dream come true.
Today, I got my wings to fly,
To fly very high,
Dreamed to fly through
The blue sky,
Wanted to sit
on stars twinkling all the night.
Today, I got wings to fly,
bro To fly very high.**

-AVIKA JAIN

Movie Review

'The Prisoner of Azkaban' is one of the favorites of Harry Potter fans and is based on the novel 'Harry Potter and the Prisoner of Azkaban' by JK Rowling. This movie is a Warner Brothers production, and was released on 4th June 2004. It went on to become a super-duper hit.

The film is based on the adventures of Harry, Ron and Hermione in their third year at the Hogwarts School of Witchcraft and Wizardry, to save their lives from the constant attacks by a servant of Lord Voldemort. As the movie progresses, Harry learns that his late parents had made their best friend, Sirius Black his Godfather, who had been misunderstood as the their killer. So, Harry and Hermione decide to travel back in time to rescue him.

The entire star cast of the movie as well as the whole team has done an amazing job. Viewers get the feel as if they are a part of Harry's adventure. The graphics of the movie showing the fictional creatures are awesome. It is a must-watch the film for all ages and takes you to the fantasy land of Harry Potter. So, I give it 5-stars.

**-Vartika Malviya

Movie Review

'Lagaan' is a remarkable movie, directed by Ashutosh Gowariker. The leading actors are - Mr. Aamir Khan is Bhuvan, the protagonist, and Ms. Gracy Singh is Gauri, the love interest of Bhuvan. The British actors - Ms. Rachel Shelley portrayed Elizabeth Russell and Mr. Paul Blackthorne portrayed Captain Andrew Russell - the supporting roles. The movie was released in 2001. It was narrated by Mr. Amitabh Bachchan. The movie is set in the pre-Independence era of India when Lagaan (meaning tax) was a major issue for the poor Indians. The movie has all the elements of a successful movie - good music, plot and actors. It is 3 hours and 44 minutes long. Even though the movie is long it is worth your time.

The story revolves around poor farmers of a small rural area near Bhuj (Gujarat), India. Bhuvan the main character had accepted an impossible challenge. He must win against the Britishers in a game of cricket. The only problem was that no one in his village knew how to play cricket. If he wins then no tax for the next 3 years but if he loses then he and the entire village will have to pay triple the amount. Another problem was that everyone in the village was against Bhuvan's decision, therefore, Bhuvan was alone in this fight. The movie shows how Bhuvan learns the game, teaches the game, and selects the appropriate players to make his cricket team. Besides this, there is a love triangle between Bhuvan, his girlfriend from the village Gauri, and a Elizabeth, a Britisher.

In 2010, the film was ranked No.55 in Empire magazine's "The 100 Best Films of World Cinema". It was also listed in Time magazine's special "The All-TIME 25 Best Sports Movies". The music numbers were at the top on the chartbuster. The acting was beyond brilliant. Altogether, this is a must-watch movie and I highly recommend it.

-Anshika
VIII C

CHASING DREAMS

Mina was a girl who lived in an average middle-class family.

However, her family was an orthodox one. Mina was 19 years old and it was her last academic day at school. She had just taken her final exam for grade XIIth. She was a very honest, dedicated, and intelligent student. She came home happily with the hope that she would talk to her uncle regarding her dream of becoming a pilot.

When she told this to her uncle, she got a shocking reply, "Girls can only become nurses or teachers." Mina was so shocked and upset with this reply that she went to her room and started crying. Her uncle was forcing her to be someone she didn't want to be. She did not agree but as usual, she had to stay quiet for her uncle's sake. Mina's aunt also tried to make her uncle understand but he didn't budge.

After a few years, Mina's uncle had a heart attack and passed away. Mina's aunt then allowed Mina to pursue whatever she wanted to. Mina then became something she wanted to be : a successful pilot.

Moral:- Girls don't have to always sacrifice.

Gender doesn't play a role in achieving dreams.

Being a good listener should be adopted by everyone because at some point you'll realise you aren't always right and others are not always wrong.

– Kanika Kaler

VIII 'B'

LIFE WILL SOMETIMES BE TOUGH...

A girl named Sara was a topper who used to study hard and get good marks, but it lasted only till class VIII. After that, she used to attend tuitions to get a better understanding as her grades were falling. She would not get things as clearly as before. As she was a topper everyone expected a very good result from her which she was doubtful about. She studied hard but was not able to get good scores. Her parents were disappointed in her as they expected better from her. This continued, while Sara sank into depression. She thought that none of her friends or family had faith in her but after a year or so she gathered some courage and started to focus on her studies. She succeeded in her first try. She was now at a good place in her life. Her parents were proud of her and were happy knowing she was happy and was not depressed. She thought over the things she had done and realised that all of her childhood was spent focusing on her studies and she didn't even enjoy her childhood. She realised that life is much greater than grades. Even if she was not getting good grades she could work hard and would score good, but time never comes back for us so we should live in the moment.

**-BSN Ananya
VIII A**

Learn From Your Mistakes

The day Ram will always remember was the day when he got admission to his dream school. He was so excited that he spilled over his glass of milk when he heard the news from his parents.

On the first day, he nervously walked into the school hallway but soon felt better when welcomed by his generous classmates and teachers.

During the break time, his math teacher said to the class, "Today we will have a simple quiz in the afternoon." His teacher wanted to test the knowledge of all students. Ram was a bright student and mathematics was his favorite subject. His teacher was surprised and happy that Ram was the only one in the entire class to score full marks on the quiz.

Time flew by and Ram became the topper of the class. He never scored less than an A + grade. Soon he became overconfident. One day Ram was happy as ever going to his school. It was a normal day till the mathematics class started. His teacher announced that she would be taking a quiz regarding the latest chapter they had done. Although Ram had not revised the chapter, as usual, he was overconfident about scoring well.

When the question paper was given to him, he was shocked to see that he did not know the answers to many questions. He still attempted those questions and after an hour handed over his test to the teacher. He was nervous and terrified that maybe his answers were wrong. That day he was not able to sleep properly thinking about it. After a few days, his teacher announced that she was going to share the marks of the test. Ram was shivering with fear. When his name was announced a few seconds later, the teacher said that he got almost every answer wrong! His teacher and parents were disappointed but not as much as he was disappointed himself. He cried for days and barely ate his meals. He was so sad that he even stopped going out to play football with his friends. He never used to miss a day without playing football. His friends and parents noticed how sad he was and tried to cheer him up but to no success.

Later, his parents and friends went up to him and told him that these things happen and it's normal. "It's a part of life", said his father, "Without failure, there is no success, and failure helps us to know what are our shortcomings. They teach us not to repeat our mistakes." His mother also added, "Life is not about Grades only. Gaining knowledge is more important. You must work harder and don't worry about what's happened already. Everyone makes mistakes."

Ram understood them and apologized to all of them and was back to normal. He still makes mistakes on his tests but has never cried over them. Instead, he learns from them.

Like a squirrel

- Ms. Gunjan
(TGT English)

Coming back from school
She saw his bike parked in front of the house..

Perplexed

She tried to Swiftly sneak inside
the glass door

as if she was a squirrel!

Excitedly..she peeped inside the living room
to check

if he was actually there
on leave or a half day...probably!!

Oh no!! He wasn't found in there

She turned around
And headed towards her room..

Devastated!!

She switch on the lights

And..Boooooo...

Jump Scares-Of course!!

Her dad was on there on a weekday!!

As she ran towards him
to give a hug,

her hands swinging
widely in the air...

All of a sudden
the alarm bell rings.

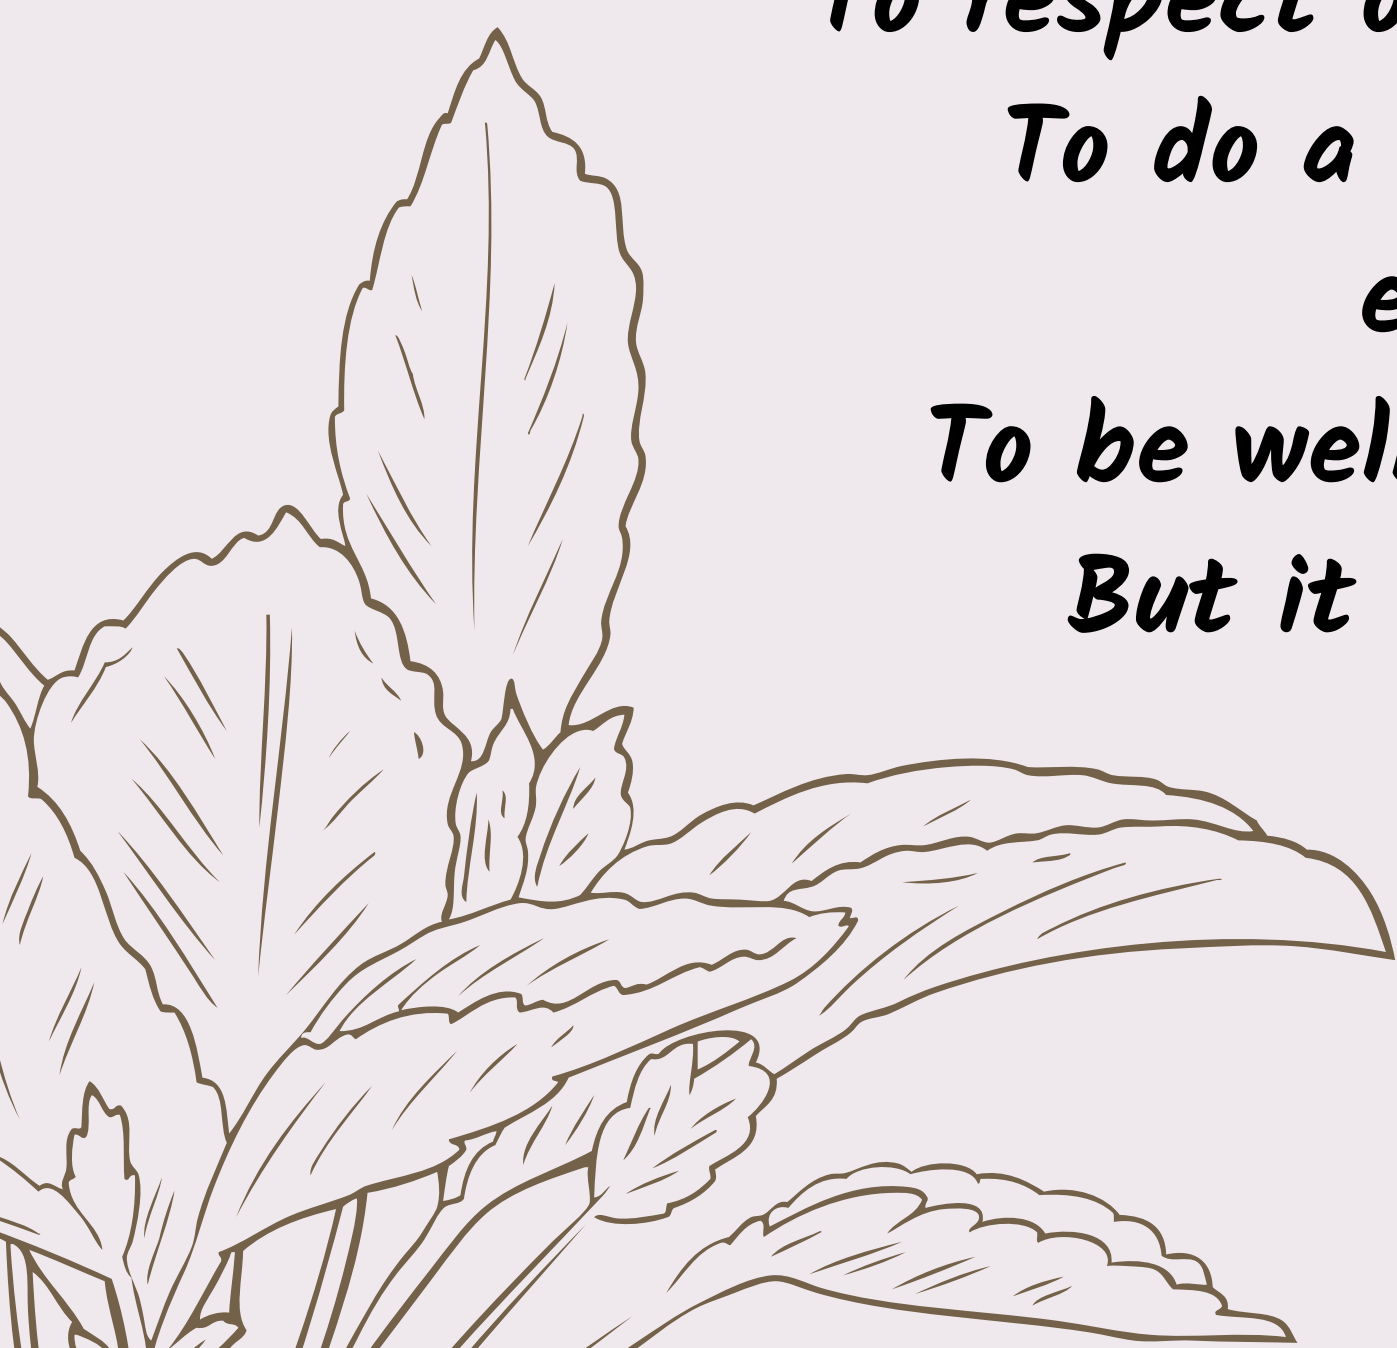

And woosh.. Everything vanishes!!!!

IT IS NOT DIFFICULT

*To Smile,
To apologise,
To be selfless,
To admit mistakes,
To enjoy your work,
To laugh at yourself,
To think and then act,
To forgive and forget,
To control bad temper,
To make someone happy,
To learn from mistakes,
To respond and not react,
To be honest and truthful,
To refrain from criticising,
To shoulder the deserved blame,
To keep cool when provoked,
To listen without interrupting,
To respect others point of view,
To do a little more than
expected,
To be well mannered to all,
But it is worth doing.*

*- Ms. Ritika Kumar
(TGT English)*

Recipes

Sprouts chaat

Sprout chat is one of the healthiest recipes and children can make it very easily and quickly.

Ingredients

- **Take 1 cup mixed sprouted Moong and Chana**
- **1 small Chopped Onions**
- **1 small Chopped tomato**
- **1 Chopped Carrot**
- **Chopped corianders leaves**
- **1 Green chilly**
- **Lemon juice**
- **Salt**
- **Chat masala**

How to Make

Take a bowl, put mixed sprouts in the bowl. Add chopped onion, carrot, tomato, green chili. Add half teaspoon lemon juice, half teaspoon chat masala and salt as per your taste. Mixed them well and now your sprouts chaat is ready to serve.

**~ Rachit
VIB**

Sandwich

A sandwich is one of the most loved breakfasts by children and adults both and it is very easy to make.

Ingredients

- 6 - 8 slice of wheat bread
- 1 Cucumber's slices
- 1 Tomato slices
- 1 Onion slices
- 3 - 4 cheese slices
- 2 teaspoon butter
- Chat masala
- Salt
- 1 Chopped green chilly and some coriander leaves

How to Make

Take 2 slices of bread and cut their crusts. Spread butter on both slices and place Onion, Tomato and Cucumber slices.

Sprinkle some salt and chat masala. Take a cheese slice and place on the vegetables and then place the second slice of bread on top of that.

Now put the sandwich in a sandwich maker and wait till the sandwich gets ready. Now your crunchy sandwich is ready to serve.

~ Rachit
VIB

Mango Kulfi

Mango kulfi is one of the most loved ice cream desserts during the summer season.

Ingredients

- **Mango pulp 250 gm**
- **Condensed milk 1/4 litre**
- **Sugar powder 250 gm**
- **Cardamon powder 1/4 teaspoons**
- **Crushed Almonds 10-15**
- **Cashew's piece 10-15**
- **2 teaspoons tutti fruity**

How to Make

Grind the mango pulp in a grinder and make a paste of it. Take condensed milk and mix the mango paste and milk properly and add sugar powder to it.

Add dry fruits, tutti frutti and cardamom in the mixture and mix them properly.

Now take a kulfi mould and fill it with the kulfi paste. Keep the kulfi container in the refrigerator for 4-5 hours.

Take out all the kulfi from the container, and your mango kulfi is ready to serve.

VIB

Oreo Gems choco-vanilla shake

This is a wonderful drink with the crispiness of an oreo and the delightful creaminess of the oreo vanilla.

Ingredients-

Choco/Vanilla Oreo pack (10-11 biscuits)

Gems(15-16 according to your need)

Milk

Choco Chips

Ice (*To serve cold)

Hot Chocolate(*To serve hot)

Directions-

First take the Oreo biscuits and then separate the biscuits from the vanilla cream, gather up all the choco biscuits and crush them in a jar. Do not turn into powder otherwise it'll dissolve in milk. Now take milk and if you want to drink it hot you can heat up the milk and use molten chocolate. When the hot chocolate is completely mixed with the milk you can use the cream of the oreo biscuit for flavour, also you can use crushed gems for decoration of the drink and for flavour. Serve it hot and let your soul enjoy the goodness of milk and delightness of chocolate Oreo and Gems.

If you want to drink it cold then you can use milk, coffee, or gems for decoration n' flavour. You can put ice in the drink and enjoy the chillness of coffee-oreo gems shake.

~Adit Saxena

Paneer Burger

For this recipe, we will need:

Burger buns (freshly made or store bought) (2 per burger)

Tomato ketchup (1 tablespoon)

Mustard sauce (1 tablespoon, optional)

Mayonnaise (According to taste, optional)

Lettuce (1 piece)

Tomato (1 ring shape)

Onion (1 ring shape)

Paneer (1/4 cup)

Spices (for the batter)

Create a batter according to your taste, you can use gram flour (besan), curd and spices. Put the cubes of paneer in it. Coat them properly and let them still for 15mins. Then take a pot and fill it with oil. Heat the oil and fry the paneer cubes till they are golden and juicy.

Then toast the buns, using butter.

To assemble, take the buns and lather them with condiments (ketchup, mustard, and mayo). Put the paneer cubes on the bottom bun, then put tomato, onion and lettuce. Then, crown it with the top bun, and enjoy this beauty.

Pizza

Ingredients:

2 cup all-purpose flour, 100 ml tomato ketchup, 1 tomato, 2 onions, 1 teaspoon chilli flakes, 1 teaspoon baking powder, 1 teaspoon sugar, 100 gm processed cheese, 1/2 capsicum (green pepper), 1 teaspoon oregano, 1/2 cup mozzarella, 1 tablespoon dry yeast, water as required

Method:

Step 1- Prepare the pizza dough

Take a dough kneading plate and add all-purpose flour to it. Next, add salt and baking powder in it and sieve the flour once. Then, make a well in the centre and add 1 teaspoon of oil to it. On the other hand, take a little warm water and mix the yeast in it along with 1 teaspoon of sugar. Mix well and keep aside for 10-15 minutes. Once the yeast has risen, add it to the flour knead the dough nicely using some water. Keep this dough aside for 4-6 hours. Now, the pizza dough is ready.

Step 2- Prepare the pizza base

Preheat the oven at 180 degrees Celsius. Now, is the time to make the pizza base when the dough is ready. Dust the space a little using dry flour and take a large amount of the pizza dough. Using a rolling pin, roll this dough into a nice circular base. Once you have made the base, use a fork and prick the base with it so that the base doesn't rise and gets baked nicely. Put it into the preheated oven and bake it 10 minutes. Now, your pizza base is ready.

Step 3- Chop all the vegetables for the pizza

Now, wash the capsicum and slice it thinly in a bowl. Then, peel the onions and cut thin slices of it as well in another bowl. And finally, cut tomatoes in the same manner. However, make sure that those tomatoes have less juice in them. Once all the veggies are done, Now, grate the processed and mozzarella cheese in separate bowls.

Step 4- Spread the sauce and veggies on the base

Then, take the fresh pizza base and apply tomato ketchup all over. Spread half the processed cheese all over the base and evenly put the veggies all across the base. Once you have put all the veggies, put a thick layer of mozzarella cheese.

Step 5- Bake the pizza at 250 degrees Celsius for 10 minutes

Put this pizza base in a baking tray and place it inside the oven. Let the pizza bake 10 minutes at 250 degrees Celsius. Once done, take out the baking tray and slice the pizza. Sprinkle oregano and chilli flakes as per your taste and serve hot. .
